

Repl.it Registration Guide

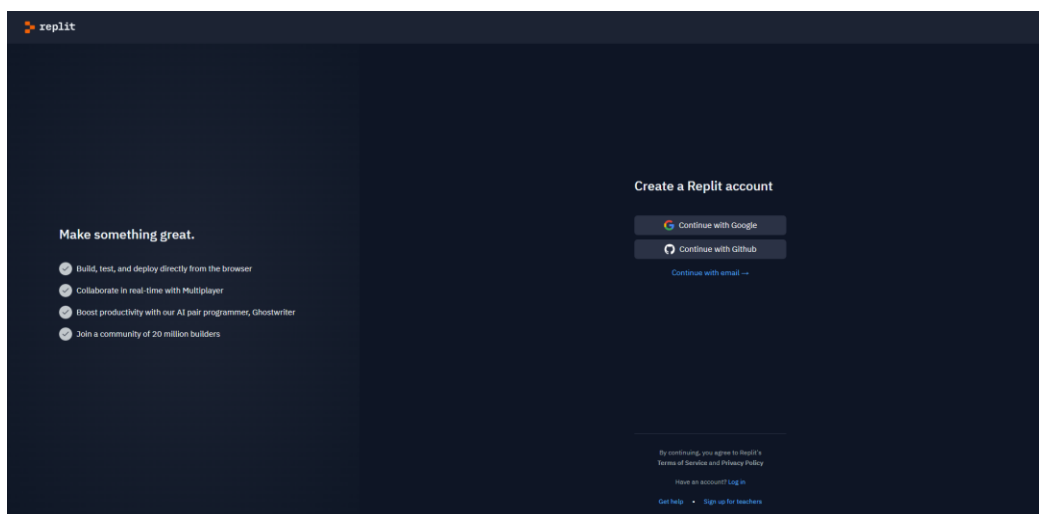

This guide is helping students learn how to register the Repl.it website account

Registration

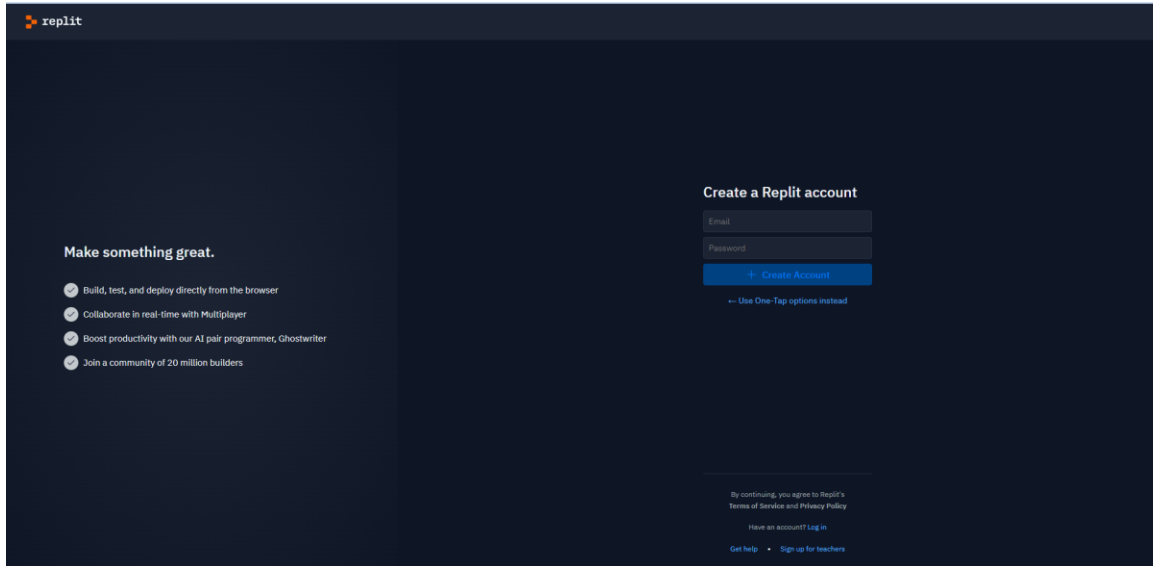

1. Go to Google and search "Repl.it" or visit: <https://replit.com/>

2. Select the blue button that says "Start Creating"

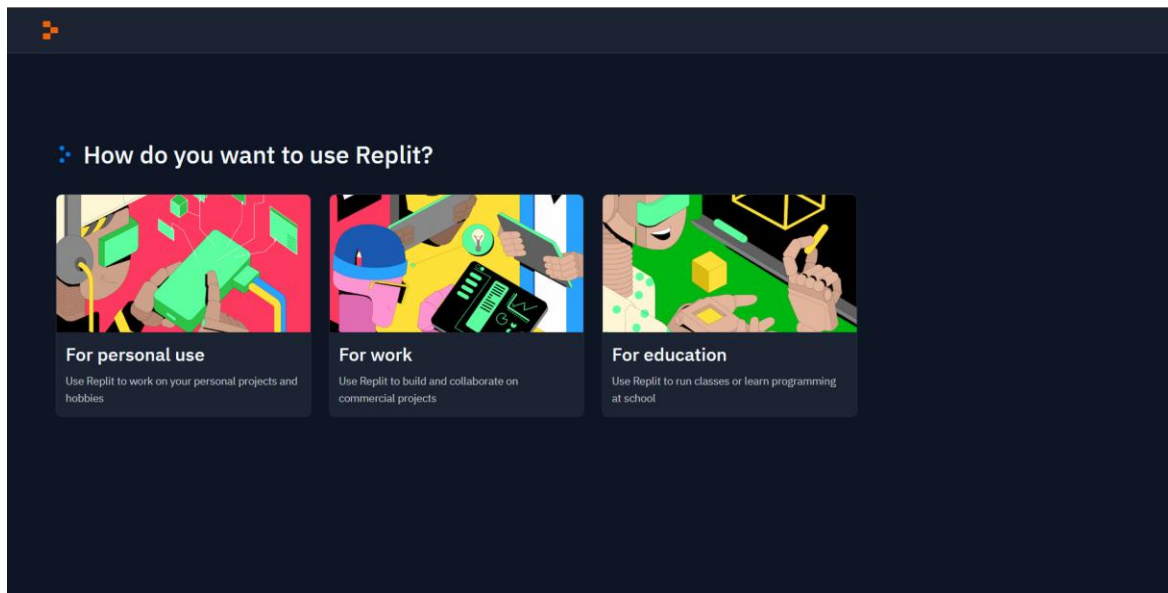

3. Select the "Continue with Email" tab. Under Personal information, select the blue button "Create Account"

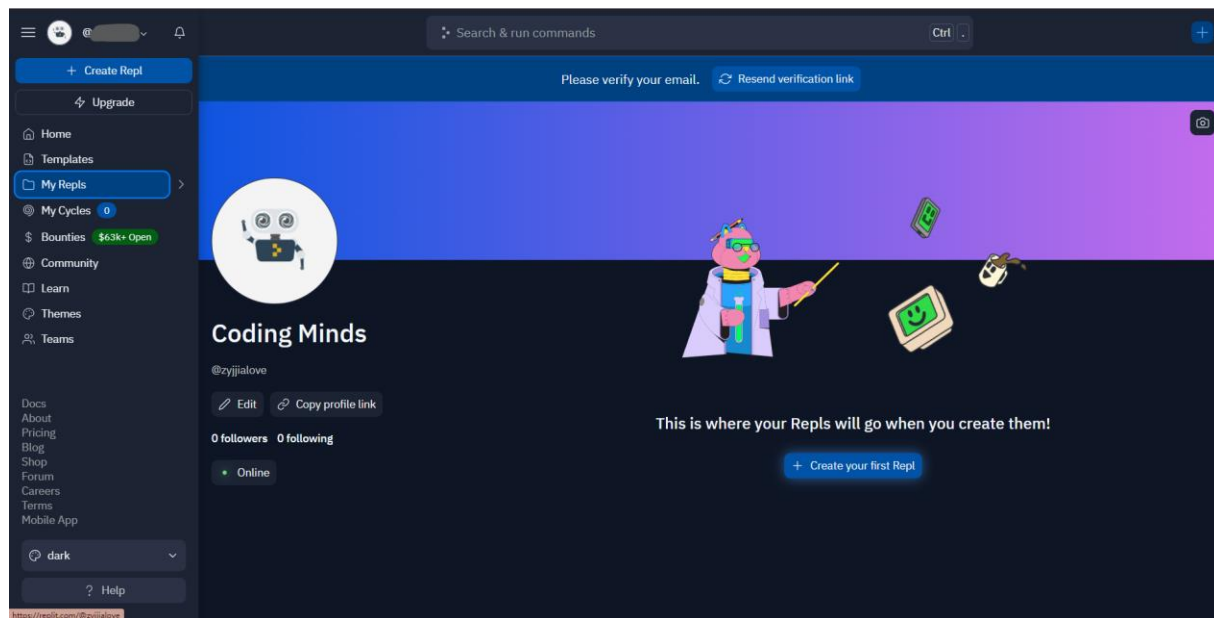

The screenshot shows the Replit account creation page. On the left, under the heading "Make something great.", there are four bullet points: "Build, test, and deploy directly from the browser", "Collaborate in real-time with Multiplayer", "Boost productivity with our AI pair programmer, Ghostwriter", and "Join a community of 20 million builders". On the right, under the heading "Create a Replit account", there are input fields for "Email" and "Password", followed by a blue button labeled "+ Create Account". Below the button is a link that says "← Use One-Tap options instead". At the bottom right, there is a small disclaimer: "By continuing, you agree to Replit's Terms of Service and Privacy Policy", a link "Have an account? Log in", and links for "Get help" and "Sign up for teachers".

4. Under First Time Users, select "For Personal Use"

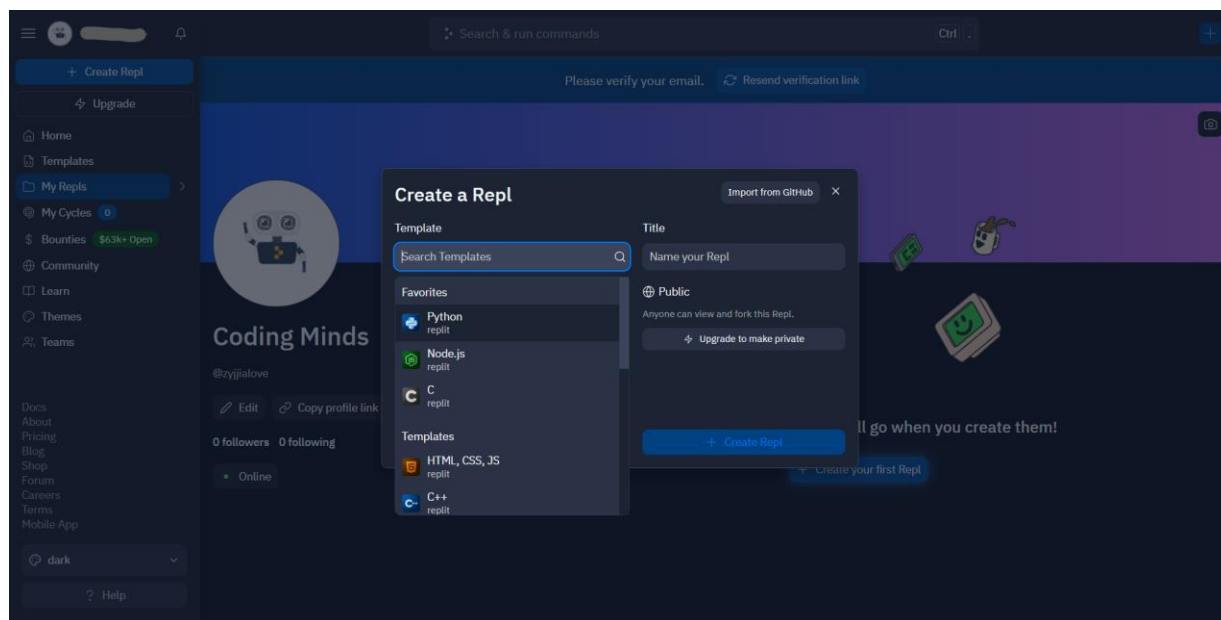

The screenshot shows the "How do you want to use Replit?" selection screen. It features three large, colorful illustrations representing different use cases. Below each illustration is a text box with a title and a description. The first option is "For personal use" with the description "Use Replit to work on your personal projects and hobbies". The second option is "For work" with the description "Use Replit to build and collaborate on commercial projects". The third option is "For education" with the description "Use Replit to run classes or learn programming at school".

5. Then Click “Create Repl” on the left side bar to create your first Repl coding page

6. Choose what programming language you are going to use and name your repl project:

7. Now you can start your coding adventure on Repl.it!
